mini LP In Da Basick Like a lot of other geeks and nerds of all ages, I was eager for Friday morning so I could start my life-long love affair with Aeternum--a game that was only hinted at in Ross and Carrie's Planet Forward! game--Earthbound. With all of the interest I put into that game, we didn't get very far, which frustrated us. Years later, DigiLab and Ancient Ways were able to locate the Aeternum Questionnaire we planned to ask people for guesses on, in which we would pair the common responses up with the entries we would find on the game itself. We actually were pretty close on the first date for this game, so I am glad we decided to just go with it. If you are interested in the game anyway, we attempt to link out to every game of ours in addition to posting the entries we have, so please check it out. Also, be sure to check out our Aeternum Quest (real name) diary discussing some issues and explantions for Aeternum. Aeternum is not just a game—though it does come with a 16 page questionnaire to fill out and a 4 page diary to log your play session. The game is designed as a co-operative storytelling game, meaning that the players are not actually playing as characters in a story. Instead, they are playing as various gods, goddesses, and lesser figures of the setting of Aeternum. As a co-operative storytelling game, it is designed to be reactive in nature. As such, Aeternum is kind of hard to describe to people. There are some precedents out there, but Aeternum feels very unique at the same time that it draws on many different concepts from different areas. A previous blog discusses this a bit further, as well as includes links to some of the existing places you can go to learn more about some of the different elements of Aeternum. Aeternum is a game where each player is assigned a role and goal in the story of Aeternum. These roles and goals are assigned by the character of Aeternus, the God of Time, who is the single most powerful figure in the game. Each player's role and goal is completely individual in the story. While the Quests of the Gods players work together towards their larger goal of attaining the 13 pieces of Aeternum, each Quest
