Magic is a very special power. It is the power to change the world for the better. The people who use this power are known as magicians. The magicians of Egypt, Greece, and Rome are mentioned in the Bible. In a remote part of India, today's Magh Mel is still alive. All over the world there are magicians who use a very rare power. It is the power to transform things and people from the ordinary to the extraordinary. The gate to the worlds most powerful temple opened. The magicians inside refused to leave. They were Masters of Magic. The most powerful magicians in the world, with supernatural powers and magical weapons. The most dangerous magicians in history on the outside, with a deadly secret agenda. They will stop at nothing to succeed. On Magical Drop III the player is identical to the character Isotope and participates in the fight using his abilities. Following the character progression, the player must win at least one game in order to win the battle and save the party's life. Magical Drop III is a puzzle-platformer that cleverly marries the story elements of Magical Drop with the scrolling challenges of a button-mashing game. This also makes it one of the easiest games ever to play with kids. Even though theres a lot of gameplay to experience in this game, there are still aspects that are frustrating. Firstly, theres the free-floating swimming, which starts you off with no balloons and where you have to slowly unlock more balloons. This part is extremely repetitive and makes it hard to pick up this game. Second, there are the mini-games. You cant enter these games unless youve already unlocked them, so youll have to play through the game quite a bit before actually getting the chance to unlock them. Third, theres the issue with unlocking everything.
